Have you all even listened?

Skip all the others. Listen to Toyin Agbetu, then listen to the others if you want a shortcut through the material. Then come back here and say your piece.

Done Sis,

I heard people say they heard it on Passion already.

(How come our radio stations are illegal?)

Anyhow...

I would say thanks to the museum for letting us use thier recording on the web.

Peace  
and thanks for the contribution
